

Open meeting

24 fev 2017 18:00 - 19:30h

Rés da Rua - Rua de Álvares Cabral 263

Do you want to help organize a gathering of struggles in Portugal?

There are ideas to organize a gathering with the goal to come together and share infos about the different struggles in and outside Portugal, to connect to each other and exchange knowledge and experiences. An event in the form of a camp. Somewhere in the countryside, near Lisbon, a central place in Portugal. During a weekend in the spring or summer of 2017.

Lets create a space to hear and present what moves us to act against destructive projects and companies. To motivate and inspire ourselves to continue to fight and create alternatives. To create networks and connections, and find solidarity and support. To learn about different strategies and built and use tools that have already been used by other activists. To discover how people can connect to each other and participate in the struggles going on in portugal.

Organization

We are looking for people interested in organizing this event/gathering. With more people we have more ideas, more energy and we will be able to invite more people. This is the first physical meeting in Porto. There will already be a meeting in Lisbon on February 17th. The idea behind this meeting is to find interested people; bring ideas together; form working groups for organization, etc.

There is no central committee, the organization is open to all interested in organizing in a horizontal way, with space to listen to the opinion of others and to make principal decisions in consensus.

Program?!

It's still very early, but to give an idea of what this event could contain: A day on international struggles: ZAD presentations, NO TAV, Long May, Reclaim the Fields. One day of presenting struggles in Portugal: several groups in the fight against shale gas; Fight against gmo; Platform against TTIP; Campaigns against dams; Struggle for housing, against speculation and gentrification etc... And one day for practical workshops to discuss techniques, use tools, debate how to create support networks etc. More ideas?

Come to this open meeting with ideas!
