

# Stopping the Nuclear Juggernaut

## A Campaign Planning Day for Activists

Saturday 30<sup>th</sup> June 2012, 11.00am – 4.00pm

**Bridge 5 Mill, 22a Beswick Street, Manchester, M4 7HR**

This meeting has been organised to learn about the success of campaigns in other countries, and of many environmental campaigns here in the UK, and how they can be sustained. We want to build on the most effective ways of campaigning and draw upon the skills and understandings of 'Occupy' and 'Plane Stupid' and other groups. This is a planning meeting for a future campaigners' event later in the year designed to strengthen the movement, in a similar way to the Yokohama conference in February 2012 brought thousands of activists together in Japan.

The aims and objectives of this planning meeting are as follows:

- To connect with national and local NGOs and activists to develop a consistent campaign that effectively puts pressure on the Government and the nuclear industry;
- To interact with positive international initiatives in this area;
- To plan a national / international conference to energise the anti-nuclear community;
- To improve and promote a consistent anti-nuclear message.

This planning meeting is open to members of local and national nuclear concerned and environmental groups across the UK, Ireland and further afield.
